Two guitars, bass and drums. Four very young French girls playing rock since high school. The name of the band allegedly came from the Beatles song 'Lucy in the Sky with Diamonds' and its lyrics '*plastiscine porters with looking glass ties*'. The band appeared on the cover of French magazine 'Rock & Folk' when Plastiscines first album 'LP1' was released in 2007. And the girls grew up ! Drum player changed twice, and here they are now with a new 2009 album 'About Love', produced in Los Angeles by Butch Walker, in which the girls band seem to have gained consistency. They are young, they are gorgeous and full of beans : hear and watch Plastiscines on the Midem Talent stage.
